

# Character Building

CORE

(Curriculum Online Resources for Educators):

an online instructional tool that provides schools with rigorous and relevant content delivered by the most advanced curriculum delivery system in the world! Based on years of research on proven instructional formats and input from thousands of educators like you, CORE is designed to enhance any classroom.

In just a few minutes a day, the Character Building Curriculum will improve your students' social skills with engaging media, critical thinking questions, and fun enrichment activities! You will use audio and multimedia narratives to engage 21st century students in learning time-tested character values, and then assess students' understanding with comprehension questions and assessment questions for each character trait. Available for grades K-6.
